

## SUMMARY:

I want to start a career as a frontend developer. What I have now:

- Basic technical skills include theoretical knowledge and experience in training projects in HTML, CSS, JavaScript, TypeScript, Angular, NodeJs
- I spent last year studying in Rolling Scopes School and I have certificates in JavaScript (20 position), Angular (9 position) and NodeJs (1 position in rating).
- Management skills: supervising less experienced colleagues, conducting technical interviews, managing people (it's an experience from my past job as a head of department).
- I have a master's degree in Physical and Mathematical Sciences (BSU).
- I am responsible for the work I do, I easily interact with other team members, I try to meet the deadlines of the task and correctly estimate the time to complete it, based on my experience. I expect to work under supervision for the first time.

## TECHNICAL SKILLS:

1. **Languages:** JavaScript, HTML, CSS (SASS), Typescript, GraphQL
2. **Technologies and Frameworks:** AngularJS, NodeJs, Redux, NestJS, RxJs, ESLint, Karma, Jasmine, Webpack
3. **Tools:** Postman, Docker
4. **Operating Systems:** Windows
5. **Databases:** PostgreSQL
6. **Version Control Systems:** Git
7. **Integrated Development Environment:** Visual Studio Code

English level: B1

## WORK EXPERIENCE:

Sept 2012 – May 2016 webmaster, KasperSystems, Minsk

Role: website promotion, administration, markup and content marketing, advertising in Yandex Direct and Google AdWords, work with popular CMS (Wordpress, modx, Joomla, etc.)

From 2016 till 2022 I was on maternity leave and studied new languages and technologies for self-development in programming.
